SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY
MARCH, 1927

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION

SPLITTING HOG CARCASSES RETAINED FOR TUBERCULOSIS

The splitting of the vertebrae of hog carcasses retained for tuberculosis may be omitted when the lesions are slight and confined to the lymph glands of the head, or of the mesenteries, or of both.

CHECKING COOKING TEMPERATURE OF SAUSAGE

Inspectors in charge are requested to check carefully the temperature at which Frankfurter style and Vienna style sausages containing muscle tissue of pork are cooked at establishments under their jurisdiction. If it is found that all parts of all such sausage do not reach a temperature well above 137° F., inspectors will take immediate corrective action, and report the matter to the Washington office.

PERMITTED DISINFECTANTS

In accordance with the provisions of B. A. I. Order 292, governing the interstate movement of livestock, the bureau has granted permission for the use of the following-named cresol solutions in the general disinfection of cars, yards, and other premises:

To Preston T. Rhodes, 112 North Delaware Avenue, Philadelphia, Pa., for the use of "Rhodes' Cresol Compound."

To James Good (Inc.), 211 East Susquehanna Avenue, Philadelphia, Pa., for the use of "Keystone Brand Saponified Cresol Solution."

To the Fuller Biological Laboratory, Springville, N. Y., for the use of "Sherwin-Williams 50% Cresol Solution" under the name "Fuller's 50% Cresol Solution." This solution is identical with "Sherwin-Williams 50% Cresol Solution" manufactured by The Sherwin-Williams Co., Chicago, Ill.

To The Paine Drug Co., Rochester, N. Y., for the use of "Cresylene Cresol Compound" under the name of "Creoxil." This solution is identical with "Cresylene Cresol Compound" manufactured by The Hunt Manufacturing Co., Cleveland, Ohio.

To Fidelity Laboratories (Inc.), 820 Exchange Avenue, Chicago, Ill., for the use of "Cooper's Saponified Cresol Solution" under the name of "Fidelity Stock Disinfectant." This solution is identical with "Cooper's Saponified Cresol Solution," manufactured by Wm. Cooper & Nephews, Chicago, Ill.

At the request of Preston T. Rhodes, 112 North Delaware Avenue, Philadelphia, Pa., the name "Rhodes' Cresol Compound" is now changed to "Dioxy Cresol Compound."

The manufacture of "Rizold Compound Dip and Spray," a saponified cresol solution, has been discontinued. (This disinfectant was formerly manufactured by Sanatory Chemical Co. and Bond-Gillessey Co., of 142 North Third Street, Louisville, Ky.)

PERMITTED DIP FOR SCABIES OF CATTLE AND SHEEP

"Flag Brand" lime-sulphur solution is permitted by the department in the official dipping of cattle and sheep for scabies. Dilutions permitted: For cattle, 1 gallon of the dip to 15 gallons of water; for sheep, 1 gallon of the dip to 20 $\frac{1}{4}$ gallons of water.

DISPOSAL OF NONEXPENDABLE PROPERTY

When any nonexpendable property is returned to Washington, duplicate signed copies of Form P-2a should be forwarded to cover it. One receipted copy of this form when returned to the station relieves it of all responsibility for the property concerned. This procedure applies no matter what the condition of the property or the reason for its return.

Miscellaneous articles that are no longer needed or that are worn out or broken beyond repair should not be returned except on written instructions. When property (except badges) is forwarded for repair and its return or replacement is desired, a request to that effect should be made on Form P-1 in the usual manner.

Official badges, Yale locks and keys, meat-inspection brands, and thermometers used in meat inspection should always be returned to the bureau.

The use of Form P-3 to cover property returned is not proper and should be discontinued. This form is for property that for one reason or another is to be dropped from the records.

Except in very unusual cases letters of transmittal should not accompany these forms, as any explanations necessary may generally be placed on the forms themselves.

The foregoing supersedes all prior conflicting instructions.

Effective on the publication of this notice the amount to be collected for lost, damaged, or destroyed keys to bureau Yale locks will be 35 cents a key. No change is made in the charge for the locks. When there is returned to the bureau any Yale lock without all the keys belonging to it, the shortage of keys must be explained on the Form P-2a covering the lock. All lost or damaged keys should be reported promptly.

RESULTS OF PROSECUTIONS FOR VIOLATIONS OF LAWS

Fines and penalties have been imposed in prosecutions for violations of regulatory laws, as reported to the bureau, as follows:

Livestock Quarantine Law

International & Great Northern Railway Co. (2 cases), failure to mark way-bills "Southern cattle," \$200 fines.

Orville Quick, Laporte, Ind., interstate shipment of cattle without tuberculin test, \$100 fine.

Twenty-eight Hour Law

Chicago, Burlington & Quincy Railroad Co., \$100 penalty.

The Chicago, Rock Island & Pacific Railway Co., \$100 penalty.

Missouri, Kansas & Texas Railway Co. of Texas (3 cases), \$300 penalties.

The New York Central Railroad Co. (8 cases), \$800 penalties.

The Pennsylvania Railroad Co., \$100 penalty.

St. Louis-San Francisco Railway Co., \$250 penalty.
